How it works

1. **Pick any envelope**
   Envelopes go from $0.50 to $50, in steps of 50 cents.
2. **Color it in**
   Each envelope only once. Go in order or pick at random.
3. **Choose a pace**
   One a day takes 100 days. Two a week takes 50 weeks.

The math

$0.50 + $1 + $1.50 + ... + $50

= $2,525

100 envelopes, $0.50 up to $50
