$91	$92	$93	$94	$95	$96	$97	$98	$99	$100

How it works

1. **Pick any envelope**
   Save the amount on it. Use real envelopes or a savings account.
2. **Color it in**
   Each envelope only once. Go in order or pick at random.
3. **Choose a pace**
   One a day takes 100 days. Two a week takes 50 weeks.

The math

$1 + $2 + $3 + ... + $100

= $5,050

100 envelopes, $1 up to $100
